

The Ohio State University College of Nursing has partnered with Clark State Community College to provide a clear path so that students can transfer easily from an Associate Degree in Nursing (ADN) to Ohio State's online RN to BSN program. Path2BSN prepares students at Clark State with the Ohio State-approved courses needed to transfer seamlessly, without overlap or loss of credits.

Students receive outstanding instruction from the same world-renowned faculty as students on campus, on a flexible schedule. Equipped with a Bachelor of Science in Nursing (BSN) from Ohio State, you will be ready to enter the nursing profession, educated in the current trends in healthcare and evidence-based practice and poised to continue your education at the graduate level.

Path2BSN.

Take charge of your career. You can earn a bachelor's degree from Ohio State affordably, on your schedule. To start your Path2BSN, you can contact the Path2BSN academic advisor at **Path2BSN@osu.edu**. They'll offer you guidance and help you choose the right Path2BSN for you!

There are two ways to accomplish the Path 2BSN:

Option 1:

2 years at Clark State
Plus 2 years of online classes with Ohio State

Option 2:

3 years at Clark State

Plus 1 year of online classes with Ohio State

You will work with your Clark State and Path2BSN advisor on the courses you need to earn an Associate Degree in Nursing (ADN) at Clark State and additional courses that will fulfill prerequisite requirements for Ohio State. You can also learn more about the Path2BSN program by visiting nursing.osu.edu/path2bsn.

Watch for announcements about when to submit your letter of intent for the Path2BSN program. You will need to have a cumulative GPA of 3.2. Once your letter of intent is approved, you will be advised when to submit an application, resume and transcripts to Ohio State.

Next, you'll need to pass the NCLEX-RN exam to become a licensed Registered Nurse (RN). You can apply to the Ohio State program before you take the NCLEX, but you will need to have passed it before enrolling in NRSADVN 4240 Concepts in Community Health Nursing.

Applying to Ohio State: Visit <u>nursing.osu.edu/rnbsn</u> to review the application deadline and required materials you will need to apply to the online BSN program.

Questions? Email us at Path2BSN@osu.edu.

In addition to offering the highest quality educational programming that is also affordable, we teach our students how to LIVE WELL

This **Sample Option 1 academic plan** (subject to change) has been designed to meet all the requirements for graduation from both institutions. Students' individual needs and interests will further shape their personal courses of study. Please see the key at the bottom of the page for additional context.
