Registering Tech Prep/Career Technology Students at Clark State

All students in your Tech Prep/Career Tech program must apply online at Clark State as a Tech Prep student. This will facilitate the posting of college credits that your students will earn through proficiency testing, industry certification or portfolio/project review. Students need to apply before March 15.

During the application process, students will choose a user name and log in. Please have all students keep a copy of both.   Please remember that all students must have a social security number completed on this application. *Any application without a valid social security number will not be accepted.*

Please feel free to check our direct website at: http://www.clarkstate.edu/admissions-financial-aid/what-kind-of-student-are-you/college-credit-plus-high-school/tech-prep. The Tech Prep application is located here, as well as the scholarship application and a direct link to the Northwest Ohio Regional Tech Prep website, which has information for students and teachers.
